## POLICY DOCUMENT ON GREEN CAMPUS

A green Campus is achieved when provide the education along with environmental friendly practices to promote sustainable and eco-friendly practices. The concept of green campus offers the opportunity for an institution to take the lead in redefining its environmental culture and developing new methods by creating long lasting solutions to the environmental, social, and economic needs of mankind. Ratnam institute of Pharmacy promotes eco-friendly practices with in the campus.

### **OBJECTIVES OF THE POLICY:**

- To frame sound environmental management policies and practices throughout the college.
- To reduce and, where practically possible to avoid pollution.
- To set targets for enhancing the performance of the environment
- To understand of current environmental conditions & performance.
- To encourage students by understanding the importance of the environment and how preventive methods to protect it.
- To implement green campus initiatives.

Green campus is achieved by sweeping away waste stuff and using conventional energy sources for its daily power needs, adopting appropriate methods for disposal handling, swift to purchase of Eco-friendly supplies and implementing an effective recycling program. The intension of the management is that, everyone must work out and follow time-bound strategies to implement green campus initiatives.

These implementations need to be incorporated into the institutional planning and budgeting processes with the aim of developing a clean and green campus. Every individual of Ratnam Institute will work, may he /she be a student, faculty, or support staff, to faster a culture of self-sustainability and make the entire campus environmentally friendly. The green campus initiatives (GCI) will enable the institution to develop the campus as a living laboratory for innovation.
